SUMMARY

Data Engineer / Data Operations professional with 5+ years of experience across financial services, consulting, and analytics. Strong expertise in alternative investment data, cloud platforms (AWS & Azure), scalable ETL pipelines, and data quality automation. Known for partnering with business stakeholders, improving data accuracy, and delivering high-impact, client-ready insights.

EXPERIENCE

iCapital, Stamford, CT

Data Operations / Alternative Investments Analyst | Aug 2025 - Present

- Partner with Fund Managers and Client Service teams to streamline financial data access, secure document workflows, and 2FA investor portal setup.
- Manage end-to-end alternative investment data (Hedge Funds, Private Equity, Private Credit), ensuring accuracy, timeliness, and compliance.
- Automated data extraction, reconciliation, and validation using AltExchange and Reli, improving data accuracy and retrieval speed by 30%.
- Perform data preprocessing, cleansing, and updates using Salesforce CRM and internal platforms.
- Build consolidated client and portfolio reports, delivering performance insights, investment ready summaries.
- Resolve data discrepancies and support audits through strong data governance and cross-functional collaboration.

ZS Analytics LLC, New York, USA

Machine Learning Intern | May 2024 - Aug 2024

- Developed ML models using Python, Scikit-learn, and TensorFlow to solve business problems.
- Performed EDA and model evaluation to generate actionable insights.
- Deployed models using AWS and Docker for scalable production pipelines.

Accenture Private Solutions, Mumbai, India

Data Engineer | Sep 2021 - Jul 2023

- Built, maintained scalable ETL pipelines using Python, Shell scripting, Hive and Unix for large enterprise datasets.
- Optimized data ingestion and transformation workflows, reducing processing time by 30%.
- Integrated structured and unstructured data into AWS (S3, EC2, Redshift) environments.
- Delivered analytics-ready datasets aligned with business and reporting requirements.
- Ensured data security, reliability, and compliance across cloud-based systems.

EDUCATION

- Yeshiva University, Master of Science in Data Analytics & Visualization, New York, USA | 2024
- University of Mumbai, Bachelor of Engineering in Information Technology, India | 2021

TECHNICAL SKILLS

- **Machine Learning & AI:** Regression, Classification, Clustering, XGBoost, LightGBM, CatBoost, Time-Series Forecasting, NLP (Hugging Face, SpaCy), Deep Learning (TensorFlow, PyTorch, CNNs, LSTMs)
- **Statistical Analysis & Feature Engineering:** A/B Testing, Hypothesis Testing, Bayesian Inference, PCA, Feature Selection (SHAP, RFE), Encoding Techniques
- **Data Engineering & Processing:** SQL, Apache Spark, Pandas, NumPy, ETL Pipelines, Data Wrangling
- **Cloud & Big Data:** AWS (S3, Lambda, Redshift, SageMaker), Azure (Data Factory, Databricks), Snowflake
- **Visualization & BI Tools:** Tableau, Power BI, Matplotlib, Plotly, Excel, Java, Python

CERTIFICATIONS

- Microsoft Certified: Azure Data Engineer Associate - July 2024
- AWS Certified Cloud Practitioner - April 2024
- Google Professional Data Engineer (In Progress)

ACADEMIC PROJECTS

- **Crime Prediction:** Developed a predictive model (XGBoost, RF) with 85% accuracy; visualized hotspots using Folium; deployed via Flask and Streamlit.
- **Stock Forecasting:** Built LSTM-based model for price prediction; automated retraining via AWS Lambda and S3.
